

**HOPKINS
HOMES**

Next Steps

Thank you for attending this public exhibition. Please take your time to complete a feedback form. Your views are important and will be considered by Hopkins Homes as part of the consultation process.

Hopkins Homes is aiming to submit a full planning application during the summer. Following the submission of the application, Broadland District Council will undertake a period of statutory consultation on the proposals. At this stage you will have the opportunity to submit your comments to the Council before a decision is made.

About Hopkins Homes

Hopkins Homes is an established and well-respected house builder based in East Anglia. Our head office is at Melton Park House near Woodbridge, on the site of the former St Audry's Hospital, where we have created a new community of 200 new homes in a parkland setting. Creating exceptional quality homes that stand the test of time is our life's work. Our designers, architects and craftspeople are passionate about retaining the heritage of the past to create homes and environments that will stand the test of time in the future.

The layout and design of every Hopkins Homes development is sensitive to the unique local character of each location. From the countryside to the city, from apartments to detached properties, our new-build homes are both sympathetically considered and beautifully built to leave a lasting legacy to be proud of.
